Stylish Performer

 SSANGYONG

MODERN URBAN APPEAL

The New Korando features trendy new styling inside and out, and performance has been upgraded as well to maximise your satisfaction with this exciting compact SUV.

You'll be proud to be seen in this classy compact utility vehicle, which is fun to drive and looks terrific about town.

PROUDLY NEW ZEALAND OWNED

SsangYong New Zealand and all our SsangYong dealers are 100% NZ owned and operated.

25 Watt HD Head lamps

Fog lamps

Puddle lamp

Tail lamp assembly

Radiator grille

Rear spoiler (Limited & SPR only)

A STYLING MAKE-OVER THAT STRESSES DYNAMISM AND REFINEMENT

The headlights and radiator grille have been extensively redesigned. Both elements now flow together in a harmonious and modern way. The LED daytime running lights / positioning lamps and projection headlamps add elegance while the black finish on the lower part of the bumper completes the assertive, modern look. The fog lamps contrast with the forceful front bumper.

Side repeaters have been mounted on the outside mirrors, and a puddle lamp is attached to the bottom of each outside mirror to assist with vehicular entry and egress in the dark.

HIGH-END FEATURES TO ENHANCE EFFICIENCY, COMFORT AND FUN

The trip computer keeps track of travel distance and fuel consumption, and the multimedia audio system with 7-inch display supports MP3, CDs, Bluetooth hands-free, the iPod / iPhone connectivity and radio data system (RDS).

The interior appearance has been upgraded, too. The new fabric seat covers are more luxurious, wearing a new pattern and woven with a double stitch. In black the seat covers are both functional and fashionable, and the metal grain panelling further enhances the interior.

Trip computer

Flat floor in back

Reclining seats are standard in all models

Heated front seats (SPR only)

Multimedia audio system with 7" display - Standard on all models.

Bluetooth hands-free and audio functions

HDMI terminal for a portable device, connectable to the 7" colour display

Reversing rear view camera

Bluetooth hands-free

Electronic Eco-cruise control

PERFORMANCE NOW BETTER THAN EVER

The New Korando comes with two engine options, a powerful and efficient 2 litre diesel engine or a 2 litre petrol model. All comply with Europe's Euro-5 emissions standards, and are remarkably quiet in operation, thanks to constant innovation and improvement.

The e-XDi200 diesel produces high torque at the low-end for better fuel efficiency and NVH performance. The cylinder block and heads are made of light, high-strength metal, while a single-belt system minimises slippage and vibration. The e-XGi200 petrol performs at its peak in the low to medium speed range. The crankshaft offset, open deck cylinder block, and low-friction technology enhance eco-friendliness.

The Aisin automatic transmission provides prompt gear shifting and smooth driving.

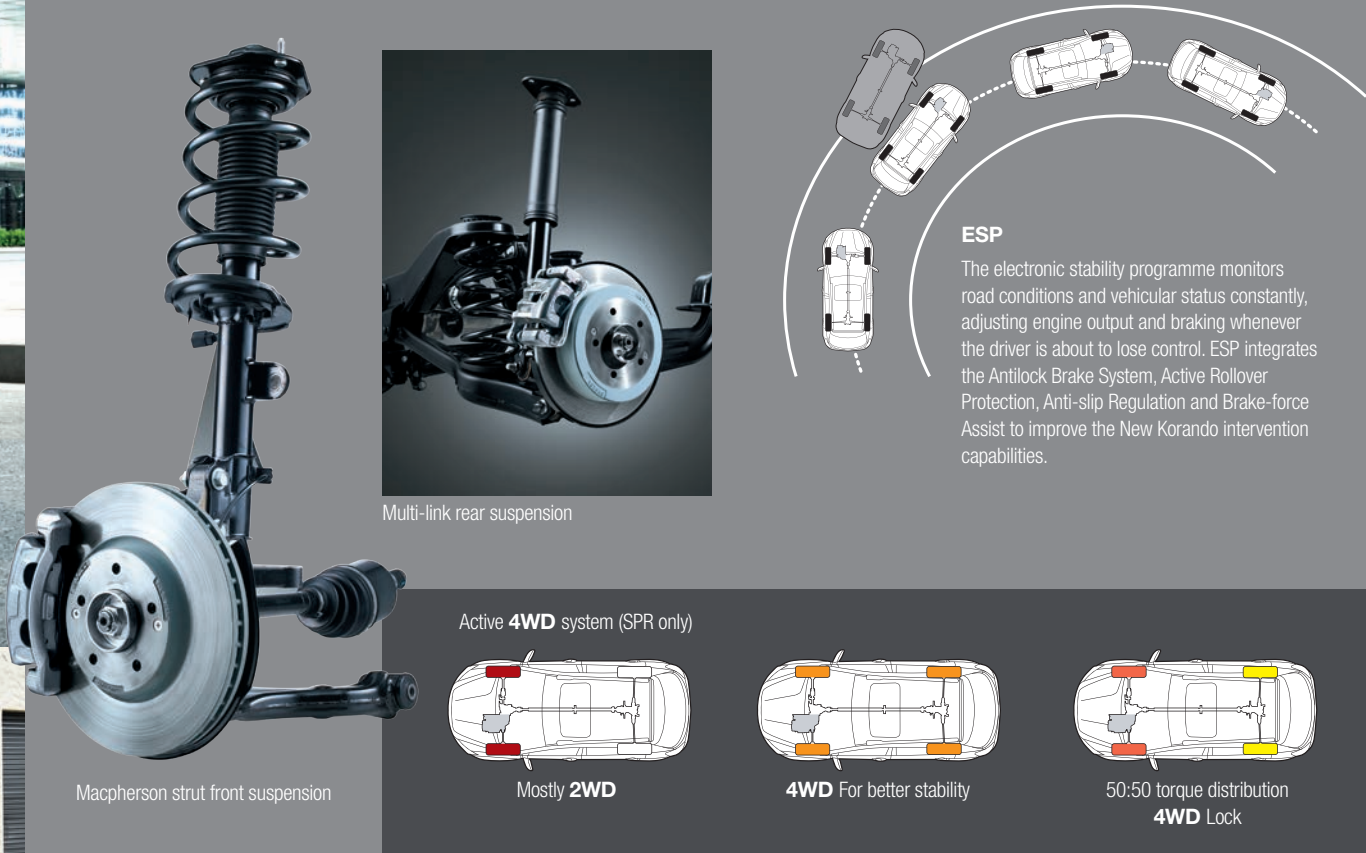

6-speed automatic transmission

THE LATEST ELECTRONICS & HIGH-END MECHANICS

The New Korando is loaded with an array of advanced systems to promote operational safety and economy as well as greater comfort for all occupants. The Electronic Stability Programme (ESP) is the platform on which are added the Hill Start Assist (HAS), and Emergency Stop Signal (ESS) features. Meanwhile, the all-wheel drive system is electronically controlled and includes a 4WD lock mode.

Macpherson strut front suspension

Multi-link rear suspension

Active 4WD system (SPR only)

Mostly 2WD

4WD For better stability

50:50 torque distribution
4WD Lock

VERSATILITY, THE NAME OF THE GAME

The New Korando has the flexibility to support everyday transportation needs as well as weekend leisure trips.

The 2nd row seats can be partially or fully folded flat depending on the load to be carried. The cargo bay is the largest for this SUV segment and the optimised interior layout provides the most possible legroom as well as wide and comfortable seating in the rear.

Normal seating (486 litre capacity)

2nd row folded flat 40% (814 litre capacity)

2nd row folded flat 60% (984 litre capacity)

2nd row folded flat 100% (1,312 litre capacity)

IMPROVED SAFETY ON ALL MODELS

A total of six airbags are now deployed in all models, including two front and two side airbags in the 1st row and a pair of curtain airbags that cover both the 1st and 2nd rows. The front airbag on the front passenger's side can be deactivated, and its presence is now completely hidden behind an attractively covered panel. All seats come equipped with head-rests, and ISO-FIX brackets for securing for a child's seat in the 2nd row.

Head-rest

ISO-FIX for child seat

Built-in 3 point centre seatbelt

Invisible passenger airbag
